

# Business for people and planet

We're a proud B Corp!

B Corporations are certified 'for profit' organisations that meet rigorous standards of social and environmental performance, accountability and transparency.

Today, there is a growing community of more than 3500 Certified B Corps across 70 countries and over 150+ industries, all working together toward one unifying goal: to redefine success in business through using business as a 'force for good'.

We are honoured to be part of this movement, recognising Global Leadership Foundation amongst a group of like-minded organisations that (in our words) are contributing to raising the emotional health levels of everyone on the planet through what they do.

As Rose Marcario, CEO of outdoor clothing supplier Patagonia, puts it: 'The B Corp movement is one of the most important of our lifetime, built on the simple fact that business impacts and serves more than just shareholders – it has an equal responsibility to the community and to the planet.'

-----  
Thank you to all our Fellows, Friends, suppliers, customers, collaborators and people in community who have inspired us and worked with us to create a more emotionally healthy world.

## Annual Report 2020

# Global Leadership Foundation

Global Leadership Foundation's vision is to raise the emotional health levels of the planet.

We do this through developing emotionally healthy leaders and their organisations.

## Developing emotionally healthy, resilient and capable leaders in the community and for-purpose sectors.

Global Leadership Foundation is committed to developing, strengthening and transforming leadership capability in communities and community groups. Along with our Fellows and Friends, we partner with and assist a range of individuals and organisations, especially in the not-for-profit sector, to design and implement leadership and organisational development programs that support good governance, leadership and sustainability.

We believe strongly in sharing our resources and knowledge – as volunteers, facilitators, mentors and more – with a diverse range of important projects and causes that have limited access to funding.

In 2020, our work has continued to focus on working with leaders and organisations in the following areas:

- > social inclusion
- > social cohesion
- > indigenous
- > health, and
- > environmental sustainability.

This support is carried out through four different mechanisms: foundation grants, pre-tax donations, in-kind or pro-bono support and low-bono support for more established not-for-profits and community groups.

Our philanthropic fund is held with Australia's oldest community foundation, the Australian Communities Foundation and each year our profits are directed into our Global Leadership Fund.

## Foundation Annual Report 2020
